REJECTION OVER PRIOR PENDING PATENT APPLICATION(S)**

The owner, Dover Chemical Co. Inc., of one hundred percent interest in the instant application hereby disclaims, except as provided below, the terminal part of the statutory term of any patent granted on the instant application, which would extend beyond the expiration date of the full statutory term defined in 35 U.S.C. 154 to 156 and 173, as presently shortened by any terminal disclaimer, of prior applications/patents listed below.

The owner hereby agrees that any patent so granted on the instant application shall be enforceable only for and during such period that it and the prior patents are commonly owned. In making the above disclaimer, the Owner does not disclaim the terminal part of any patent granted on the instant application that would extend to the expiration date of the full statutory term as defined in 35 U.S.C. 154 to 156 and 173 of the prior patents, as presently shortened by any terminal disclaimer, in the event that it later: expires for failure to pay a maintenance fee; is held unenforceable, is found invalid by a court of competent jurisdiction, is statutorily disclaimed in whole or terminally disclaimed under 37 CFR 1.321, has all claims canceled by a reexamination certificate, is reissued, or is in any manner terminated prior to the expiration of its full statutory term as presently shortened by any disclaimer.

**37 C.F.R. §1.132 Declaration**

This Declaration by inventor Dr. Donald R. Stevenson is submitted in accordance with 37 C.F.R. §1.132.

I, Dr. Donald R. Stevenson, declare as follows:

- 1 I am a co-inventor of the technology described in United States Published Patent Application US 2004/0183054 A1 assigned to Dover Chemical Corporation and titled "Phosphite Ester Additive Compositions", Serial No. 10/709,510, filed on 11 May 2004, which is a continuation-in-part of patent application Serial No. 10/086,619 filed on 01 March 2002, which claims priority upon the following provisional patent applications, namely: Provisional Patent Application Serial No. 60/315,746 filed on 29 August 2001, Provisional Patent Application Serial No. 60,314,181 filed on 16 August 2001; and Provisional Patent Application Serial No. 60/273,303 filed on 02 March 2001 (the "Prior Invention").
- 2 I am also a co-inventor of the technology described in United States Published Patent Application US 2004/0180999 A1 assigned to Dover Chemical Corporation and titled "Phenol-Free Phosphites", Serial No. 10/709,578, filed on 14 May 2004 (the "Instant Invention").
- 3 In responding to the pending office action, notably paragraph nos. 2, and 4-5 of the office action dated 05 April 2007, the Instant Invention was derived from my own previous work or work which I directed be undertaken under my direction, in the Prior Invention, and thus, is not the invention "by another."

**Petition for Late Claim to Priority**

This Petition by the applicant's attorney, Louis F. Wagner is submitted in accordance with 37 C.F.R. §1.78(a)(2) and 37 C.F.R. §1.78(a)(5).

***Enclosures Contained with this Petition***

1. Declaration of applicant's attorney (Exhibit A); and
2. Application Data Sheet (Exhibit B).

***Statement of Facts Involved***

This pending U.S. patent application Serial Number 10/709,578 was filed on 14 May 2004 without any claim to priority. Through the most recent office action, the applicant's attorney has recognized the issues raised by the examiner, and now wishes to claim priority from an earlier filed application, which disclosed, but did not claim the subject matter of the instant invention. The first appreciation of this facet of the disclosure was through the substantive office action issued by examiner Kriellion Antionette Sanders.

1. The claim to priority identified in the instant application is made in a utility application filed after November 29, 2000.
2. The claim to priority is being made outside of the time period of four months from the actual filing date of the later-filed application or sixteen months from the filing date of the prior-filed application.
3. The claim to priority is being requested to be entered as stated in the amendment response filed on 24 September 2007.
4. A Petition surcharge as identified under 37 C.F.R. §1.17(t) (\$1,370.00), namely the acceptance of an unintentionally delayed claim for priority, accompanies this Petition.

5. The entire delay between the date of the claim was under under 37 C.F.R. §1.78(a)(2) and the date this claim is being filed was unintentional.

***Subsequent Actions taken by Applicant's Attorney***

Applicant's attorney is submitting herewith an Amendment in response to a pending office action received on the instant matter. The substance of the office action by Examiner Sanders has suggested that a properly filed terminal disclaimer in conjunction with a claim to priority to a commonly owned, previously filed patent application would permit various claims to be in a condition for allowance.

The applicant further submits an Application Data Sheet to further comply with the requirement (Exhibit B).

***Points to be Reviewed***

Applicant petitions for entry of the late claim to priority in this instant pending patent application.

***Action Requested***

Applicant petitions for entry of this late claim to priority and entry of the attached Application Data Sheet.
